thermochimica acta

Subject index

Binary system
Thermal analysis of chiral drug mixtures: the DSC behavior of mixtures of ephedrine HCl and pseudoephedrine HCl enantiomers 147
Bioavailability
Pharmaceutical hydrates 61
The use of thermal analysis in the assessment of crystal disruption 131

Calorimetry
A review of thermal methods used for the analysis of the crystal form, solution thermodynamics and glass transition behaviour of polyethylene glycols 189
Capacitance
Thermoelectrical analysis of the human skin barrier 303
Cellulose ether
Thermal analysis of gels and matrix tablets containing cellulose ethers 329
Crystal defect
The use of thermal analysis in the assessment of crystal disruption 131

Dehydration
Pharmaceutical hydrates 61
Disruption index
The use of thermal analysis in the assessment of crystal disruption 131
DMA
Pharmaceutical applications of dynamic mechanical thermal analysis 97
A review of thermal methods used for the analysis of the crystal form, solution thermodynamics and glass transition behaviour of polyethylene glycols 189
DMTA
Pharmaceutical applications of dynamic mechanical thermal analysis 97

Drug
Pharmaceutical hydrates 61
Thermal analysis of gels and matrix tablets containing cellulose ethers 329
Thermal analysis of glassy pharmaceuticals 81
Thermal analysis of phase transition behaviour in liposomes 289
Thermal analysis of spray dried products 245
Thermal studies on polymorphic structures of ibopamin 205
Thermoanalysis of microspheres 259
DSC
A review of thermal methods used for the analysis of the crystal form, solution thermodynamics and glass transition behaviour of polyethylene glycols 189
Characterization of two terfenadine polymorphs and a methanol solvate: kinetic study of the thermal rearrangement of terfenadine from the methanol solvate to the lower melting polymorph 217
Comparison of recent techniques to characterize the crystallization behaviour of fatty suppository bases 271
Lactose and thermal analysis with special emphasis on microcalorimetry 161
The effect of moisture on the structure of magnesium stearate 177
The use of thermal analysis in the assessment of crystal disruption 131
Thermal analysis and calorimetric methods in the characterisation of polymorphs and solvates 1
Thermal analysis of chiral drug mixtures: the DSC behavior of mixtures of ephedrine HCl and pseudoephedrine HCl enantiomers 147
Thermal analysis of gels and matrix tablets containing cellulose ethers 329
Thermal analysis of glassy pharmaceuticals 81
Thermal analysis of phase transition behaviour in liposomes 289

Thermal analysis of proteins of pharmaceutical interest 229
Thermal analysis of spray dried products 245
Thermal studies on polymorphic structures of ibopamin 205
Thermoanalysis of microspheres 259
DTA
The thermal behaviour of water in hydrogels 319
The use of thermal analysis in the assessment of crystal disruption 131
Thermal analysis of gels and matrix tablets containing cellulose ethers 329
Thermal analysis of glassy pharmaceuticals 81
Thermal analysis of spray dried products 245
Thermal studies on polymorphic structures of ibopamin 205
dTMA
Thermal analysis of glassy pharmaceuticals 81

Enantiomer
Thermal analysis of chiral drug mixtures: the DSC behavior of mixtures of ephedrine HCl and pseudoephedrine HCl enantiomers 147
Entropy of processing
The use of thermal analysis in the assessment of crystal disruption 131
Ephedrine
Thermal analysis of chiral drug mixtures: the DSC behavior of mixtures of ephedrine HCl and pseudoephedrine HCl enantiomers 147
Eutectic
Thermal analysis of chiral drug mixtures: the DSC behavior of mixtures of ephedrine HCl and pseudoephedrine HCl enantiomers 147

Fat
Comparison of recent techniques to characterize the crystallization behaviour of fatty suppository bases 271

Gel
Pharmaceutical applications of dynamic mechanical thermal analysis 97
Thermal analysis of gels and matrix tablets containing cellulose ethers 329
Glass transition
The thermal behaviour of water in hydrogels 319
Thermal analysis of glassy pharmaceuticals 81
Thermal analysis of proteins of pharmaceutical interest 229
Thermoanalysis of microspheres 259

Heat of absorption
The thermal behaviour of water in hydrogels 319
Heat of fusion
Thermal analysis of chiral drug mixtures: the DSC behavior of mixtures of ephedrine HCl and pseudoephedrine HCl enantiomers 147
Heat of melting
The thermal behaviour of water in hydrogels 319
HPMC
Pharmaceutical applications of dynamic mechanical thermal analysis 97
HSM
The effect of moisture on the structure of magnesium stearate 177
Thermal studies on polymorphic structures of ibopamin 205
Human skin barrier
Thermoelectrical analysis of the human skin barrier 303
Humidity
Lactose and thermal analysis with special emphasis on microcalorimetry 161
Hydrate
Pharmaceutical hydrates 61
Hydrogel
The thermal behaviour of water in hydrogels 319

Ibopamin
Thermal studies on polymorphic structures of ibopamin 205
Isothermal
Applications of isothermal microcalorimetry in the pharmaceutical sciences 117

Kinetics
Applications of isothermal microcalorimetry in the pharmaceutical sciences 117
Characterization of two terfenadine polymorphs and a methanol solvate: kinetic study of the thermal rearrangement of terfenadine from the methanol solvate to the lower melting polymorph 217

Lactose
Lactose and thermal analysis with special emphasis on microcalorimetry 161
Liposome
Thermal analysis of phase transition behaviour in liposomes 289

Magnesium stearate
The effect of moisture on the structure of magnesium stearate 177

Matrix
Thermal analysis of gels and matrix tablets containing cellulose ethers 329
MDSC
A review of thermal methods used for the analysis of the crystal form, solution thermodynamics and glass transition behaviour of polyethylene glycols 189
Thermal analysis and calorimetric methods in the characterisation of polymorphs and solvates 1
Microcalorimetry
Applications of isothermal microcalorimetry in the pharmaceutical sciences 117
Lactose and thermal analysis with special emphasis on microcalorimetry 161
Microsphere
Thermoanalysis of microspheres 259
Model
Thermal analysis of phase transition behaviour in liposomes 289

NMR
Comparison of recent techniques to characterize the crystallization behaviour of fatty suppository bases 271

ODSC
Thermal analysis and calorimetric methods in the characterisation of polymorphs and solvates 1
Oscillation rheometry
Comparison of recent techniques to characterize the crystallization behaviour of fatty suppository bases 271

Phase transition
Thermal analysis of phase transition behaviour in liposomes 289
Polyethylene glycol
A review of thermal methods used for the analysis of the crystal form, solution thermodynamics and glass transition behaviour of polyethylene glycols 189
Polymer
Pharmaceutical applications of dynamic mechanical thermal analysis 97
Polymorph
A review of thermal methods used for the analysis of the crystal form, solution thermodynamics and glass transition behaviour of polyethylene glycols 189
Polymorphism
Characterization of two terfenadine polymorphs and a methanol solvate: kinetic study of the thermal rearrangement of terfenadine from the methanol solvate to the lower melting polymorph 217
Thermal analysis and calorimetric methods in the characterisation of polymorphs and solvates 1
Thermal analysis of spray dried products 245
Thermal studies on polymorphic structures of ibopamin 205
Protein
Thermal analysis of proteins of pharmaceutical interest 229
Pseudo-polymorphism
Pharmaceutical hydrates 61
Thermal analysis and calorimetric methods in the characterisation of polymorphs and solvates 1
PVP
Thermal analysis of spray dried products 245

Resistance
Thermoelectrical analysis of the human skin barrier 303

Skin
Thermoelectrical analysis of the human skin barrier 303
Solvate
Thermal analysis and calorimetric methods in the characterisation of polymorphs and solvates 1
Spray drying
Thermal analysis of spray dried products 245
Stability
Pharmaceutical hydrates 61
Thermal analysis of proteins of pharmaceutical interest 229
Thermal analysis of spray dried products 245

TA
Thermal analysis of spray dried products 245
Thermoelectrical analysis of the human skin barrier 303
Terfenadine
Characterization of two terfenadine polymorphs and a methanol solvate: kinetic study of the thermal rearrangement of terfenadine from the methanol solvate to the lower melting polymorph 217

TG
Characterization of two terfenadine polymorphs and a methanol solvate: kinetic study of the thermal rearrangement of terfenadine from the methanol solvate to the lower melting polymorph 217
The effect of moisture on the structure of magnesium stearate 177
Thermal studies on polymorphic structures of ibopamin 205
TGA
Thermal analysis of proteins of pharmaceutical interest 229
Thermoanalysis of microspheres 259
Thermorheography
Comparison of recent techniques to characterize the crystallization behaviour of fatty suppository bases 271
TMA
Thermal analysis of glassy pharmaceuticals 81
Thermal analysis of proteins of pharmaceutical interest 229

Water
Lactose and thermal analysis with special emphasis on microcalorimetry 161
The effect of moisture on the structure of magnesium stearate 177
The thermal behaviour of water in hydrogels 319

XRD
Characterization of two terfenadine polymorphs and a methanol solvate: kinetic study of the thermal rearrangement of terfenadine from the methanol solvate to the lower melting polymorph 217
The effect of moisture on the structure of magnesium stearate 177
Thermal studies on polymorphic structures of ibopamin 205
